ABOUT COMPANY

Founded in 2011 in Tuy Phuoc, Vietnam, Tran Quang Stones designs and manufactures furniture in cement, terrazzo, natural stone and stone-look surfaces. By integrating advanced production technology with expert craft, we deliver durable, refined pieces for furniture brands, importers and hospitality projects in the USA, Europe, Australia, the Middle East and Asia.

At the core of Tran Quang Stones is a dedication to material excellence. Our carefully selected materials are valued for their durability and versatility, enabling furniture that is both visually striking and highly functional. From dining tables to bespoke decorative elements, each piece can be made to your size, colour and finish.

"Tran Quang Stones – Solid Material – Timeless Design."

“WHERE MODERN MACHINERY MEETS SKILLED PRODUCTIVITY”

We operate two production facilities with a combined area of 10,000 square meters, about 40 skilled workers and output of up to 20 × 40HC containers per month. Organized, efficient workshops support streamlined workflows and consistent quality control at every stage.

Our factory integrates advanced machinery, including CNC stone engraving and bridge cutting systems, supported by a skilled and dedicated workforce. This combination ensures precision and efficiency, while expert hand-finishing enhances each piece with distinctive character, resulting in high-quality products that balance performance with refined craftsmanship.

VISION & MISSION

Vision

Our vision is to become a leading brand in modern furniture by redefining design through solid materials innovation. We strive to create timeless pieces that blend artistry, functionality, and sustainability. By continuously pushing creative boundaries and prioritizing quality, we aim to inspire refined living spaces and set new standards in contemporary craftsmanship worldwide

Mission

We are committed to delivering customized solutions that reflect each client's vision while maintaining responsible practices. Through skilled craftsmanship and original design, we aim to enhance modern living spaces and build lasting relationships based on trust, quality, and creativity.

HOW WE WORK

Our production process commences with the rigorous selection of eco-friendly materials, evaluated for structural integrity and natural distinction. Utilizing advanced machinery alongside refined artisanal techniques, each material undergoes precise cutting, shaping, and finishing. Careful attention is given to surface detailing and proportion to achieve both visual harmony and functional performance. The outcome is a collection of unique furniture pieces that exemplify craftsmanship, durability, and elegant design.

ADVANCED MICROCEMENT FURNITURE CONSTRUCTION

Microcement combines durability and flexibility, making it ideal for modern interiors. Its cement-based composition resists wear, impacts, and cracking, while enabling seamless application on floors, walls, and furniture, delivering long-lasting performance with a sleek, uniform finish for residential and commercial spaces.

FLEXIBILITY OF MICROCEMENT PRODUCTS

Microcement furniture offers exceptional flexibility, adapting to a wide range of shapes and forms. Its seamless application allows for smooth, continuous surfaces, supporting both minimalist and complex designs while maintaining structural integrity.

DURABLE, SUSTAINABLE, AND ECO-FRIENDLY

Microcement is a durable and versatile material suitable for both indoor and outdoor use. It resists moisture, UV exposure, and wear, ensuring long-term performance. Applied over existing surfaces, it reduces waste while offering a practical and sustainable solution.

FLUID GEOMETRY

Adapting to diverse shapes and forms with ease. Its seamless application enables smooth, continuous surfaces. This allows for highly customized pieces that suit various design concepts.

SIGNATURE THEMES

Natural yet remarkable colour palette

Great design goes beyond selection to how elements unite. Our curated categories organize pieces by style, mood, and purpose, simplifying styling while offering harmonious combinations that enhance spaces with cohesive, functional, and expressive design.

01. NATURAL CEMENT COLOR

Textured finishes paired with warm-toned cement form a soft palette of sand, oat, and clay hues. Picture a timeless, minimalist setting—perfect for interiors that feel light, organic, and open, where natural elements create a calm and inviting atmosphere.

02 NATURAL STONE PATTERNS

These countertops are crafted to blend seamlessly with your current kitchen surfaces, showcasing distinctive natural stone hues rarely seen, enhancing the overall elegance and character of your home.

TQ47-2A

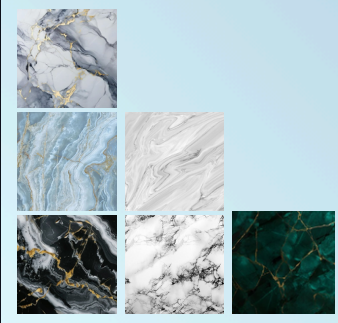

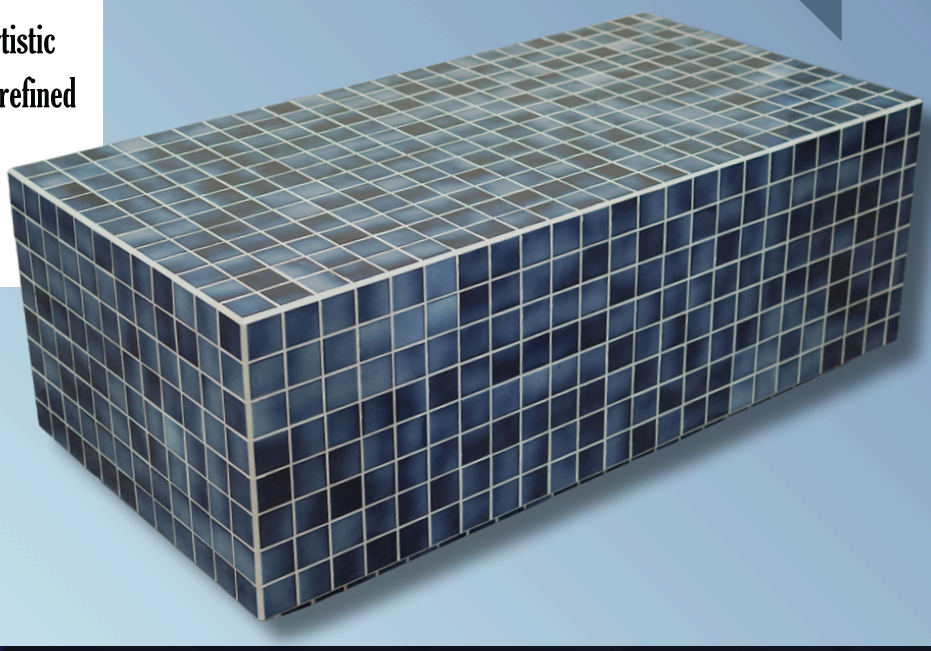

03. ELEGANT TERRAZZO TEXTURES

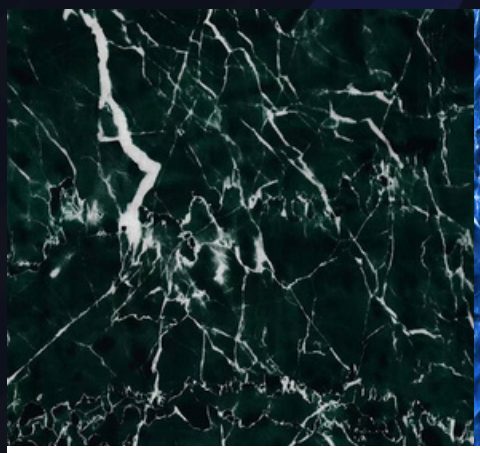

Terrazzo features a polished surface with irregular marble, quartz, or glass fragments, paired with white or gray cement offering a multidimensional, elegant, and durable texture ideal for both decorative and functional spaces.

MARBLE HARMONY

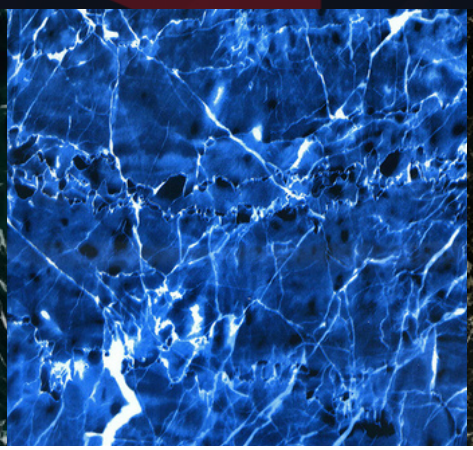

Marble-themed stone furniture blends natural elegance with modern design, transforming everyday pieces into artistic statements that elevate spaces with timeless beauty, refined texture, and enduring sophistication.

Prices quoted per project, FOB or CIF.

MONZA COFFEE TABLE SET

30% deposit, balance after shipment, or L/C.

OUR CAPABILITIES

1. Custom Design, OEM / ODM

We develop pieces from your drawing, reference image or sample. Size, colour, pattern and finish are adapted to each project, with prototypes and material samples made for approval in 7–14 days before production starts.

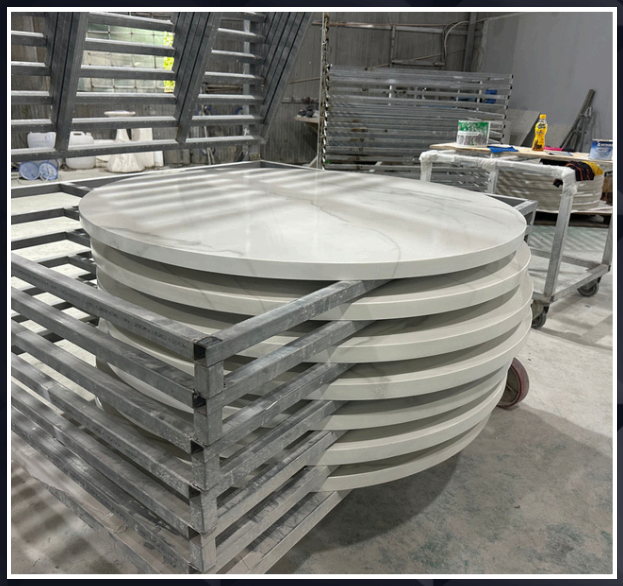

2. Scalable Production & Export

Two factories with 10,000 m² and about 40 skilled workers produce up to 20 × 40HC containers a month. Packing, container loading and export documents are handled in-house, with FOB and CIF terms available.

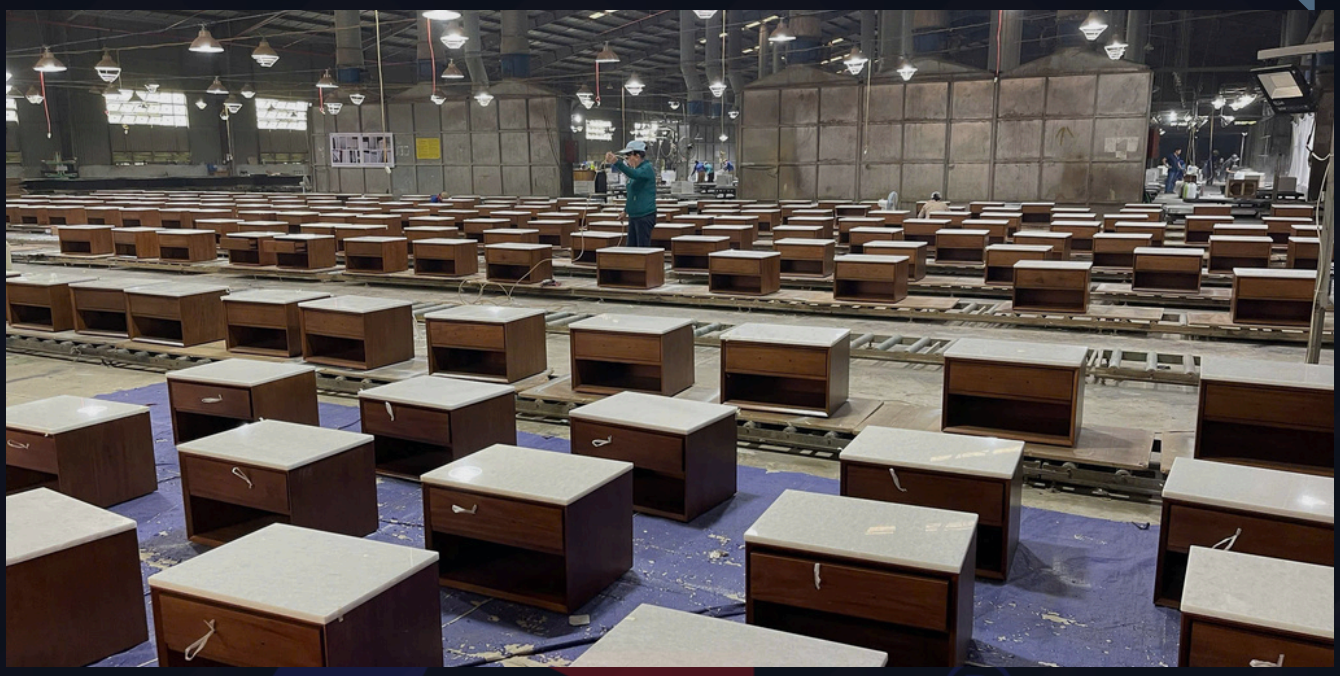

TRAN QUANG STONES

3. Tested and Audited Quality

Our factory is audited under amfori BSCI and SMETA. Stone-look surfaces are tested by Eurofins for coating adhesion, UV exposure and extreme temperature change, and every order passes seven quality checkpoints.

OUR CORE VALUES

Building Excellence Through Our Core Values

Our company is guided by three core values: **quality**, **innovation**, and **integrity**. We are committed to delivering high-quality products that ensure reliability and customer satisfaction.

We embrace **innovation** to stay competitive, constantly improving our designs and processes to meet evolving needs. At the same time, we uphold **integrity**, building trust through honesty and transparency.

Together, these values collectively define our organizational identity, guiding our strategic direction while consistently driving viable growth, long-term success, and the continuous enhancement of our overall performance.
